

Case Study: Team Calendar Solution

Lightspeed Communications & Electrical

TORQUE
exceed your IT

Introduction

Torque IT investigated the shared calendar solution in use by Lightspeed Communications & Electrical which was costing in server resources and not suitable for the mobility requirements of the business.

Project Scope

- ❖ Investigate replacement options for shared calendar with similar user experience
- ❖ Replace existing shared calendar system and migrate data
- ❖ Decommission server that ran previous shared calendar system

Solutions Provided

After reviewing the required outcomes, Torque IT identified a cloud-based calendar solution as a suitable replacement for Lightspeed Communications & Electrical's existing shared calendar system.

Torque IT facilitated the transition between the shared calendar systems and migrated existing data to the new system.

Project Benefits

The solution provided by Torque IT has meant a reduction in costs as a physical server is no longer needed to host the shared calendar system.

The new shared calendar system has also added additional functionality including smartphone apps, allowing users more flexibility in its use.

Project Outcomes

Similarities between the old and new shared calendar systems has meant users have been able to learn the new system on-the-go without the need for in depth training on how to use the new system.

As a result, Lightspeed Communications & Electrical have experienced a smooth transition between the systems.

Client Feedback

"Torque IT identified an opportunity for a cost reduction and delivered an 'outside the box' solution that assists our day to day business."
– Joseph Arrigo, Lightspeed Communications & Electrical
